

JOB OPPORTUNITY POSTING

POSITION TITLE: GIS Technician – Telecommunications

LOCATION: Sudbury

REPORTS TO: Fibre Department Manager

COMPANY:

Vianet provides complete communications solutions throughout Ontario, with a wide range of Internet access services including high speed DSL and Cable Internet, Wireless and Fibre to rural residents and businesses. Vianet constructs its own fixed wireless and Fibre to the Home networks, provides phone service in all its serving areas and television service in selected areas.

SUMMARY:

Vianet is seeking a qualified, experienced individual to manage and administer Vianet's outside plant GIS systems. The person in this position would be working with various mapping tools to maintain an up to date record of Vianet's physical fibre optic network. This person in this position will also be involved with planning and designing new fibre optic network throughout Vianet's service area.

The ideal candidate will have an educational background in and/or previous work experience in GIS related to telecommunications outside plant.

Vianet has an extensive and rapidly growing fibre optic network in urban and rural areas throughout Ontario.

POSITION RESPONSIBILITIES:

- Maintaining an up to date record of Vianet's physical outside plant network using Vianet's fibre optic mapping tools through daily updates based on as-built drawings, technician field notes and other communication with Vianet staff
- Create and supply maps of Vianet infrastructure to 3rd parties such as Ontario One Call, municipalities and other entities as required.
- Planning and designing new fibre routes and submitting related permit applications as required to municipalities and pole owners.
- Provide fibre assignments and splice details to installation and splicing technicians working in the field.
- Providing remote assistance to field techs, construction crews and contractors with identifying the location of Vianet plant.

EXPERIENCE / KNOWLEDGE REQUIRED:

- Post secondary education related to GIS.
- Experience with CAD, ESRI, Mapinfo and other GIS type tools is mandatory.

- Previous experience working as a GIS technician at a telecommunications company or municipality is an asset.
- Understanding of aerial and underground infrastructures and related technical standards in an asset.
- Excellent attention to detail is required.
- Strong communication skills both verbal and written.
- Well organized with good time management skills and able to work independently with minimal supervision.
- A team player with the ability to work well with others.

DATE POSTED: Jan 12, 2018

LAST DATE TO APPLY: March 12, 2018
