vianet

JOB OPPORTUNITY POSTING

POSITION TITLE: Junior Web Developer

DEPARTMENT: Programming

LOCATION: Sudbury

REPORTS TO: Programming Manager

COMPANY:

Vianet provides complete communications solutions throughout Ontario, with a wide range of Internet access services including high speed DSL and Cable Internet, Wireless to rural residents and Fibre to larger enterprises. Vianet constructs its own fixed wireless and Fibre to the Home networks, provides phone service in all its serving areas and television service in selected areas.

JOB SUMMARY:

There is an immediate openings for a Full Time Junior Web Developer at the Sudbury location. We are looking to hire a creative and experienced individual that loves web development and working in a fast paced, challenging environment with tight deadlines. As a Junior Web Developer you will be working with our skilled Programming team and our clients to produce clean, semantic and fast web code with proficiency in both frontend and backend development.

POSITION RESPONSIBILITIES:

- Daily use of modern web technologies HTML, CSS, Javascript, PHP, jQuery, AJAX, Twitter Bootstrap, Adobe Photoshop and other technologies and programming languages
- Work closely with the Apex department on daily tasks including website activity and improvements
- Produce clean, semantic and fast website code
- Create clean and intuitive user interface design
- Design and develop HTML templates, landing pages and website pages
- Develop, implement and maintain frontend applications
- Create customized websites
- Interact with management to support and implement new projects and features
- Must be meticulous

EXPERIENCE / KNOWLEDGE REQUIRED:

- 1-3 years previous web development experience developing responsive websites
- Post secondary education required
- Well versed in the use of modern web technologies: HTML5, CSS, Javascript, PHP, jQuery, AJAX, Twitter Bootstrap, Adobe Photoshop and other programming languages
- Knowledge of stylesheet processors is a huge plus
- Good understanding of modern UI design principles and the ability to work from mock ups
- Solid communicator both verbal and written
- Ability to interact at all levels and with the end user
- Ability to adapt to change quickly and learn new technologies i.e. continually upgrading web design technology knowledge and skills
- Capacity to work in a rapidly evolving creative environment
- Passionate about cutting edge technology
- Knowledge of graphic design would be considered an asset
- Excellent analytical and problem solving abilities with acute attention to detail
- Strong team player with a great positive attitude and sense of humour
- Excellent time management and or project management skills with the ability to take initiative, multi-task and prioritize work in a busy fast paced environment with minimum supervision and meet tight deadlines

HOURS OF WORK: Monday to Friday
8:30am – 5:00pm
40 hours per week

DATE POSTED: February 6th, 2017

LAST DATE TO APPLY: February 17th, 2017

HOW TO APPLY:

If this is a job opportunity you are interested in applying for please submit your resume in confidence via email to humanresources@vianet.ca or by fax 705-222-2800 referencing "Junior Web Developer - Vacancy" in the subject line. We thank all applicants in advance for your interest in applying, however because of time constraints, only those under consideration will be contacted.
